Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on _____.
- 2a) This action is **FINAL**. 2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Applicant's claim of priority to DE 10043074.0 is acknowledged.

Claims 1-13 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:
 - a. Claim 1 is indefinite for the following unclear limitations:
 - i. "w halogen atoms" – it is unclear if w is the number of halogen atoms, or a variable substituted with halogen atoms.
 - ii. "k radicals" – it is unclear if k is the number of radicals, or a particular radical. Also, there is no definition for k.
 - iii. "v radicals selected from" – again, it is unclear if v refers to the number of radicals, or a particular radical.
 - iv. The definition of R³ allows for N-OR⁸, N-NR⁸R⁹, which seems to have an incomplete valence on the first nitrogen.

- v. The proviso for p, w, and x is unclear if it is meant for p, w, and x in the definition of L only, or it is meant for all instances where p, w, and x appear.
- vi. The definition of $C^1(C^2)_q(C^3)_o$ is unclear whether each of the C variable can be an monocycle or a polycycle, or all three is collectively defined as a fused or unfused ring system. Paragraph (f) seems to describe a fused ring of C^1 , C^2 , and C^3 .
- vii. The definition of R^5 allows for “two radicals R^5 bonded to a joint carbon atom form a chain...” It appears that a spiro ring is intended, and not a chain. Clarification or correction is suggested.

b. In claim 3, item (e) is unclear. The way it is written, it seems like p can have a value of 0, and be oxo, NR^8 , etc. at the same time which makes the ‘if’ clause incomplete.

c. Claims 10-12 provide for the use of compounds of formula (I), but, since the claims do not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

d. The dependency of claim 13 is unclear because it appears as an independent claim by reciting a different formula (may be an intermediate), but it refers to claim 1 for all the definition.

e. Claims 2-13 are (also) rejected as being dependent on claim 1, and carrying over its limitations.

Due to the indefiniteness of the claims, no art rejection can be applied at this time.

Claim Rejections - 35 USC § 101

2. Claims 10-12 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Information Disclosure Statement

3. The IDS of 2-11-02 and 8-30-01 have been considered, but it is noted that they do not list references cited in the specification. Applicant is reminded that the listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tamthom N. Truong whose telephone number is 703-305-4485. The examiner can normally be reached on M-F (9:30-5:00) & every Saturday morning (starting from 4-7-03).
